Portfolio: https://neha229.github.io/My_Portfolio/

PROFESSIONAL SUMMARY

MCA graduate (AI/ML specialization) with hands-on experience building full-stack web applications, data-driven ML pipelines, and cloud-integrated solutions. Proficient in Java, Python, React, Django, C#, PHP, and Azure. Proven track record across multiple internships — delivering responsive UIs, optimizing backend performance, and deploying machine learning models to solve real-world problems. Eager to contribute as a Software Developer in a fast-paced engineering team.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, PHP, C#, C++, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, Figma

Backend & Frameworks: Django, REST APIs, WordPress, PHP

Cloud & DevOps: Microsoft Azure, DevOps, Git, GitHub

AI/ML & Data: Scikit-Learn, NumPy, Pandas, OpenCV, LLMs, Jupyter Notebook

Databases: MySQL, SQL, DBMS

Tools: VS Code, Figma, WordPress, Jupyter Notebook

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern | RP Infocare Pvt Ltd, Bangalore.

Mar 2026 – Jun 2026

- Developing and maintaining real-time working web applications using .Net, Java, React, PHP, and WordPress etc and those project is in use and it is available in Google.
- Designed interactive UI/UX prototypes in Figma, improving design-to-development handoff efficiency.
- Built and customized WordPress themes and plugins to enhance user experience and site performance.
- Contributed to both frontend and backend modules, resolving bugs and ensuring smooth production deployments.

Data Science Intern | TechCiti Technologies Pvt Ltd, Bangalore

Nov 2024 – Feb 2025

- Processed and analyzed structured datasets using Python (Pandas, NumPy), improving data quality by 30%.
- Built and evaluated ML classification models with Scikit-Learn, tracking accuracy and performance metrics.
- Automated data-cleaning workflows, cutting manual effort by 40% through scripted pipelines.
- Created dashboards and visual reports to support data-driven decisions by stakeholders.

Full Stack Intern | Zephyr Technologies and Solutions Pvt Ltd, Mangalore

May 2023 – Jun 2023

- Built responsive frontend components with HTML, CSS, Bootstrap, and JavaScript.
- Integrated MySQL queries into backend modules to power dynamic content delivery.
- Collaborated on end-to-end feature development through code reviews and debugging sessions.

Advanced JavaScript & React Virtual Intern | Webodaya / AccelerLab, Ujire

Jul 2021 – Oct 2021

- Built interactive React components, increasing interface responsiveness by 25%.
- Implemented ES6+ logic and API integrations, reducing rendering errors by 30%.
- Debugged and optimized JavaScript functions for improved code efficiency.

Web Development Intern | AccelerLab Technologies Pvt Ltd, Ujire

Jan 2021 – Jun 2021

- Developed responsive webpages using HTML, CSS, Bootstrap, and JavaScript.
- Built PHP/MySQL backend features, reducing data loading time by 20%.
- Resolved UI/UX issues alongside senior developers to improve user flow efficiency.

KEY PROJECTS

Paddy Leaf Disease Detection

- Engineered a disease classification pipeline using Scikit-Learn, significantly reducing prediction time.
- Built a visualization dashboard with Python and OpenCV to identify infected samples for rapid decision-making.

Hepatitis Disease Prediction System

- Cleaned and standardized medical datasets, improving model reliability by 20%.
- Developed an end-to-end prediction platform integrating ML algorithms with a web-based diagnostic interface.

Brain Tumor Detection (NSEDAN Algorithm)

- Applied preprocessing techniques (normalization, thresholding) to enhance image clarity by 25%.
- Built a feature extraction pipeline and evaluated model performance using accuracy and sensitivity metrics.

Blood Bank Management System

- Designed SQL queries to reduce data retrieval time by 35%, improving staff workflow.
- Automated donor-recipient matching, cutting manual processing by 40%.

Zoyera – Service Booking & Management System

- Designed a responsive UI for seamless user experience and operational workflow optimization.
- Streamlined information retrieval for staff, reducing time taken for service updates.

EDUCATION

MCA – AI & Machine Learning (CGPA: 8.6) | Mangalore Institute of Technology and Engineering, 2023 – 2025

B.Voc – Software & Application Development (CGPA: 9.2) | SDM Degree College, Ujire, 2020 – 2023

CERTIFICATIONS & ACHIEVEMENTS

- Google Analytics Certification
- Salesforce Badge (CRM & Automation)
- Data Science & Analytics with Python – NPTEL
- Developed and authored a research paper titled "Neuro-Inspired Dual-Attention Network for Automated Brain Tumor Detection," which was accepted and presented at the 4th International Conference on Advances in Science, Engineering & Technology (ICASET 2025)
- .Full Stack Web Development – Coursera, Sololearn, Zephyr Technologies, AccelerLab, Webodaya
- Android Application Development & Image Processing Workshop
- Participant – SAP HackFest '24 (team-based real-world problem solving)

SOFT SKILLS

- Strong communication and interpersonal skills with a willingness to learn
- Hardworking, self-motivated, and eager to take new challenges, decision-making, problem solver
- Positive attitude with adaptability in academic and project-based environments and capable of managing salesforce tools.
- Basic leadership and team collaboration skills gained through projects and internships.
